[illegible] Hymn's
not a nice fine, Hermann information
[illegible] better part of next Mon. Thanks to
Dr Thistle in it, native haunts! [illegible]
Lovely Lovely is me, if I mistake me=,
of Curtis old hunting grounds. That a
city that he did me home the feather
in his cap. Like mine how pleased me
all should come have fun over the
prize.)

Ill I am glad I said nothing on
of the way to Hymn, and his me at
least is deserving of the credit and the
respect. But I congress "that" in Botany, from an
simple, I dont like rain; I only wish
that the fifty most annual herbaria in
the world have each good specimens of
the plant "[illegible]-pratis-pervulgi". But

after all the main thing is that the
Host is re-discovered.

You remember how that when
I was last at Cambridge we had some
talk about the blessing of the South-
Kensington. It will be early in May
at the very latest that I could be in
this part.

Looking at the atlas since writing about
Lee that we must all have been in
the same county as it adjoins Somerset
and Wiltshire, but our journeys lay
in its western part. Do you
know I think that Cobham must have
found Shelton on the eastern side
of the Black Alt, for there was only
1 the road. It is more probable that
the former became one of the original
ones.

Ever yours
